

The Sarvepalli Radhakrishnan School : A Haryana Govt. initiative for

Excellence in Education

The school, as the name suggests, is modelled on the philosophy of the great Dr. Sarvepalli Radhakrishnan. Educationist, philosopher and thinker, he is more famously known as India's first Vice President and second President. The Sarvepalli Radhakrishnan School is mandated to provide holistic development of children through experiential, joyful learning and educational innovation. It'll be school's endeavour to cater to intellectual, physical, emotional, psychological and spiritual development of children thus, bringing out the best in each child.

The School is set up under the aegis of the Dr. S. Radhakrishnan Shiksha Samiti, which is supported by the Board of School Education, Haryana (BOSEH), in technical collaboration with The Shri Ram School, New Delhi. It is situated within the green environs of the BOSEH campus in Bhiwani.

Commenting on the school, Mr. Shekhar Vidyarthi, I.A.S, Secretary, BOSEH, says: "The focus is on Learning by Doing. Thus, it would involve each child in real-life tasks and challenges so that there is emphasis on teacher, student and environmental interaction rather than traditional lectures. The student is encouraged to compete and achieve, but the Sarvapalli Radhakrishnan School wants to make that a fulfilling and effortless process."

To facilitate its vision, the school offers state-of-the-art infrastructure, from labs to computer centres to recreational facilities. The school is ready for launch in this academic session. The school would also facilitate action research in education, strategy development in pedagogy, educational technology assessment, teacher training etc. such that the basic model of the school may be replicated in the rest of the state.

In its first phase, the school will admit students from nursery to class 4, and class 9 and 11.
